## CORPORATE

### Strategy

Fe Limited (**ASX: FEL**) ("**FEL**" or "**Company**") is an Australian company with interests in a large portfolio of mineral resource projects at exploration stage located in Australia that are prospective for iron ore, gold and nickel.

The Company's strategy is to explore and add value to its iron ore projects in Western Australia and position them for development and/or divestment. The Company is undertaking a strategic review of its gold and nickel interests with a view to divestment to enable it to focus on its iron ore projects. In addition, the Company is actively seeking new investments in bulk and related commodities including iron ore and manganese.

### Funding

In June 2011, FEL secured a \$2 million standby loan facility ("**Facility**") to ensure that the Company has sufficient funds to progress the Mt Ida exploration program, and to perform the necessary works to satisfy the conditions precedent under the agreement to sell its 100% interest in Gympie Eldorado Mining Pty Ltd to BRI Microfine Pty Ltd. The Facility was entered into with cornerstone shareholder Cape Lambert Resources Limited (ASX: CFE) ("**Cape Lambert**"), which currently holds a 19.9% interest in FEL. At 31 December 2012, \$2 million had been drawn down under the facility. The Company has renegotiated a deferral of its repayment obligation to 31 December 2013. In addition, the Company has secured an additional short-term facility with Cape Lambert capped at \$1,000,000, which will enable it to meet its obligations as and when they fall due.

## PROJECTS

### Projects Review

The Company holds, or has rights or interests in, approximately 320 tenements prospective for iron, nickel; copper and gold located mostly in Western Australia (refer Figure 1). This total includes 77 interests and rights in the 3 iron-focused projects at Mt Ida, Mt Elvire and Robinson Range, referred to as core projects. The necessary commercial and technical information required to seek expressions of interest for the divestment of the non-core projects is in the process of being completed.

#### **Peak Hill Projects ("Peak Hill") (20% rights, free carried to decision to mine)**

Via its wholly owned subsidiary, Jackson Minerals Pty Ltd, FEL has a 20% free carried interest in 21 tenements in the Peak Hill Gold Field, including tenements proximal to Sandfire Resources NL Doolgunna Project and DeGrussa copper gold mine (14.33Mt @ 4.6%Cu and 1.6g/t Au) and several gold and copper prospects. The Peak Hill Project tenements have been the subject to sales to Alchemy Resources Ltd (ASX: ALY), Resource and Investment NL (ASX: RNI) and PepinNini Minerals Ltd (ASX: PNN).

#### **Grosvenor Gold Project (RNI 80%, FEL20% free carried to Decision to Mine)**

FEL, via its subsidiary, Jackson Minerals Pty Ltd, holds a 20% free carried interest to Decision to Mine in eight exploration licenses (E51/1033, E51/1060, E52/1613, E52/1655, E52/1659, E52/1670, E52/1671, E52/1672) and five prospecting licenses (P52/1169, P52/1170, P52/1171, P52/1172, P52/1194) (refer Map 1).

The tenements hold favourable geological setting hosting the DeGrussa VMS discovery.

#### **Bryah Basin Copper Project (ALY 80%, FEL 2% free carried to Decision to Mine)**

FEL, via its wholly owned subsidiary Jackson Minerals Pty Ltd holds a 20% free carried interest to Decision to Mine in four exploration licenses (E52/1668, E52/1678, E52/1722, E52/1730) and four prospecting licenses (P52/1167, P52/1168, P52/1196) (refer Map 1).

### **Robinson Range Iron Ore Project (20%)**

PepinNini Minerals Ltd (“**PepinNini**”) (50% iron ore rights) is the operator of the Robinson Range Iron Ore Project.

FEL, via its subsidiary, Jackson Minerals Pty Ltd, holds 20% free carried interest to Decision to Mine in four exploration licenses (E51/1033, E52/1613, E52/1670, E52/1672) in the Robinson Range Project (refer Map 1).

### **Northcote Gold Antimony Project (10-15%)**

As part of ongoing project review and rationalization, the Company has entered into a conditional sale agreement for the Northcote gold/antimony Project located in far north Queensland which was announced on 15 January to Territory Minerals Ltd. The sale is conditional upon Territory successfully listing on the Australian Securities Exchange (ASX).

The Company holds 10%-15% in two mining tenements which host gold/antimony mineralization with defined resources previously determined by Republic Gold Ltd (previous majority owner) and forms part of a larger project area. Territory intends seeking listing on the ASX in the near term.

Terms for the sale include:

- Issue of 1 million shares in Territory,
- Payment of \$74,999 upon successful listing, sale or divestment of all or some of the project to a third party,
- Territory maintains the tenements in good standing.

Territory anticipates listing on the Australian Securities Exchange in the near term via an Initial Public Offering and has accumulated leases in strategic locations in northern Queensland containing significant gold inventory. Territory also has granted leases in the Northern Territory proximal to rare earth and mineral sands discoveries.

### **Gympie Eldorado Mine Site (Care and Maintenance)**

During September 2012, FEL received the initial cash payment from BRI Microfine Pty Ltd (“**BRI**”). BRI has advised the Company that the capital raising, for the acquisition of all the shares in Gympie Eldorado Mining Pty Ltd (“**GEM**”), a wholly owned subsidiary of FEL, has been delayed due to market difficulties, but is close to completion.

Consideration for the sale also includes a net smelter return of 6.5% on gold recovered from tailings treatment and 25% of any profits on sale of freehold land. In addition, FEL will be reimbursed \$2,264,984 in respect of environmental performance bonds on completion of the sale to BRI. The Company is continuing to work with BRI to satisfy the conditions precedent set out in the sale agreement.

Yours faithfully

Fe Limited

## Notes

- 10 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
