PROJECTS

The Company holds, or has rights or interests in, various tenements prospective for iron ore, lithium, gold and copper located in Western Australia and the Northern Territory.

Whilst the company retains its tenure in the East Pilbara and Pippingarra areas, exploration is being continued at a lower priority given the Company's focus on developing its Iron Ore assets as soon as possible to capitalise on the current iron ore pricing situation.

JWD Mining Rights (Western Australia)

As previously announced, on 29 September 2020 FEL completed its acquisition of a 51% interest in the Mining Rights Agreement held by the Gold Valley Iron Ore Pty Ltd (**GV**) over the Wiluna West JWD deposit (**JWD Mining Rights Acquisition**).

On 15 December 2020, the Company advised it had lodged its Works Approval application for the JWD Iron Ore Project with the WA Department of Water and Environmental Regulation ("DWER"). The Works Approval is the only outstanding primary environmental approval required to facilitate commencement of production at JWD.

The Company is in discussions with key contractors to mine, crush, truck and shipload the JWD product with a view to being ready to make a Decision to Mine shortly after receipt of the Works Approval to capitalise on the elevated iron ore price which exist at present.

Yarram (Northern Territory)

As noted above the Company completed the acquisition of a 50% interest in the Yarram Iron Ore rights during the quarter.

Key FEL management visited the site during the quarter and commenced planning for a drilling program which is envisaged to infill and step-out from previous drill holes with an aim of providing sufficient data to publish a JORC resource. The program is also intended to provide additional information to support the environmental approval process for Yarram.

FEL acquired 100% beneficial interest in six tenements in May 2019. The tenements acquired represent the Pippingarra Gold Project and the Marble Bar Lithium Project (together the Projects) (refer Figure 1
